REVIEWS

I am very excited about the Oliveda products! Now I have been able to test them for a few months and can report! I have been struggling with blemished skin for years! In the meantime I am 32 years old and have given up hope for a better skin. Since I use the Olivedaprodukte, my skin shines. The impurities are receding! That is the hammer! I rarely have new inflammations, it's more like the previous ones start to subside. The skin also feels just beautiful and so slowly I dare to go out without make up. I've never had that before! I have tried so many different products and none have helped me! Either the skin was too oily or too dry and always associated with blemishes. I also had concerns about ingredients in other products and wasn't sure what to use while pregnant. That's when Oliveda came along just in time! I finally found the right product for me! Thank you Oliveda!!!

(Tatjana)

I've become a huge fan of your Beauty Fountain and it's firmly part of my morning ritual :) that it tastes good is a huge plus, but more importantly, your ingredients - especially the great hydroxytyrosol - just somehow work wonders! I've struggled with dry and flaky skin on my shins for probably two years now (and no matter what time of year it is) and since I've been drinking the Beauty Fountain, it's just gone away! No single body lotion in recent years has managed this and actually I had already resigned myself to the fact that it will remain forever, but bang: The Beauty Fountain just got it right! I found your description of the Beauty Fountain particularly exciting, because it does so much good for the skin and I can only confirm it: Also in the face my skin has become much much much softer and it becomes eeeendlich always finer pored! It just feels much fresher and since I feel better, I radiate that of course much better :) The Beauty Fountain helps so not only superficially, but really makes you glow from the inside! Thanks for the great product and this real enrichment in everyday life!

(Martha M.)

Since I was 14, I have had a problem with my skin, which manifests itself in many nasty blackheads on the nose, a partly over-oily, partly dust-dry skin in the T-zone and some pimple marks. I have really tried everything, have bought me felt 100 creams from all possible brands until I became aware of Oliveda. This was my personal last try and just because I was so skeptical at the beginning, I am even more happy now that I tried it! My skin is much more supple and radiant with the combination of the F06 serum and F63 oil. But for me personally most important, I no longer have to torture myself through the day with a super oily / partly dust-dry face, but have a pleasantly moisturized skin with even complexion and the dry skin flakes are a thing of the past!

(Franziska W.)

Dear Oliveda team, thank you for the opportunity to try the new face mask with matcha. I tried the mask immediately on the weekend during an extensive full bath. Here is my assessment of the new face mask: Design Packaging: Pretty, simple and provided with all the information that you want to have as a consumer at first glance. I like that you describe the benefits as well as the application. Feel, Smell and Appearance: The green color is great and seems very natural for the matcha cream, which it is :) by the green color you are directly tempted to smell the cream and also to try it:). However, the cream smells not at all intrusive but very pleasant. You notice when applying the mask that it is very rich, because it is rather muddy in consistency. Application: The mask can be distributed very well with the fingers. And it does not dry out even after a longer application time (20 minutes). It would be helpful to know how much of the mask should be applied. On the skin you notice just as rich the mask is. Really a good feeling. Due to the light grain it feels not only caring but also cleansing. Conclusion: The mask was one of my first products from Oliveda, which I have tried and I am thrilled. Thank you and a wonderful Easter week.

OLIVEDA

OLIVE TREE PHARMACY

My most beautiful experience is my youthful appearance. I turned 50 this year and am often asked about my skin. When I am out with my 18-year-old daughter, we are mistaken for sisters. I have an autoimmune disease (Hashimoto) and a strong immune system is especially important. The Oliveda products work from the inside, they renew my cells. My daughter has always had problems with her skin, in the past it was said that it was age-related acne and would grow out. She is now 18 years old and the problems have remained. Since she has been taking The Beauty Fountain and The Beauty Molecule with me, you can almost watch her back get smoother and smoother. She is beaming and overjoyed that she will soon be able to wear a top again, which was not possible until now (for optical reasons). Two generations - twice happiness and health!

(Monika T.)

The new F74 is an enrichment for your already great assortment. I apply the cream in the morning and evening after cleansing and after I have used the serums F06 (morning) and F59 (evening). The combination with other products is uncomplicated and the products complement each other super. I am particularly excited about the change in consistency of F74, first it is rather thick and becomes more fluid / oily when applied. It literally melts into the skin during application. After that, the famous OLIVEDA glow emerges and the skin feels great. I have subtle blemishes and after a few days I can see how they are healing and accelerating. The skin looks fresher and more cared for. Already with other of your products the freshness is achievable and visible, but the F74 takes it up a notch. The F74 is really great and must no longer be missing in my care routine. I look forward to this little spa experience every morning and evening!

(Susi O.)

The new Lip Balm from Oliveda I now use regularly since the end of January and every day I love him a little more. My lips are usually dry and chapped, especially in the winter and heating season...And unfortunately, I often get cold sores, which made using most commercial lip balms impossible (in fact, these care sticks often call cold sores on the scene in the first place, instead of containing them). That's why for years now I've used a medicated lip balm from the drugstore... But since I've known about F75, even those stay in the drawer. I use it sparingly several times a day and in the evening before going to bed, I apply it thi-

cker - like a lip mask and I am thrilled how soft my lips are now. There are no more cracks or dry skin particles. Only still supple soft lips. I also love wearing the lip balm instead of a lipstick - the fine shine on the lips beats any lip gloss and looks much more natural and subtle. I do not like to be without my F75 at all!

(Hilda H.)

I was completely thrilled with the mouth pull oil! For years I had problems with red and bleeding gums! With the mouth drawing oil I started in April - actually as a support, because I had very high liver values, which could not be clarified until today! At the beginning of June I had my annual dental check-up! The dentist was just freaking out with joy over my firm pink gums! All the dental assistants had to come look and Oliveda is now the talk of the office and is recommended to other problem patients! By the way, the teeth have also become whiter! What a nice side effect :) I am very happy to have tried Oliveda and am now a regular customer!

(Kerstin O.)

For about 3 years I suffer temporarily from unexplained acne around the mouth (no dermatologist could help me). Job technically my skin suffers, by stress redness arises, by overstrain of the eyes small wrinkles, by too little drink it simply looked nagged out. I use the care of you - after about a year of consideration (since cost factor for my circumstances relatively high and the fear of disappointment even higher) - now for just under 2 months. Since teenage days I have not gone out of the house without make up. The difference in the short time is just the HAMMER. The feeling at the first look in the morning in the mirror and the certainty no longer 10 new impurities to encounter is so great. I rarely use make up anymore, got a much more even complexion and not to forget the glow. I love the cell active serum the most. I can only thank you and hope that you continue to do so for the rest of my life.

(Jennifer O.)

Already since the year 2017 I had to fight strongly with my acne again. It bothered me a lot until I noticed a slight decrease in 2019. Nevertheless, scars and unsightly red spots on the facial skin remained. I learned about Oliveda via Instagram, but didn't dare to order anything. If even the ointments from the dermatologist didn't help, why would Oliveda? But then in the summer I was taught better. I ordered the SOS olive leaf gel

OLIVEDA

OLIVE TREE PHARMACY

and then the F06 serum. What can I say? After almost 4 weeks my skin was a dream! Today I have peach skin again and also use the F06 face serum, the B14 SOS olive leaf gel, the F38 cleansing gel, the F18 olive face mask and the F42 Corrective face cream! My favorite will always be the great F06 serum, because it started a wonderful skin care story that even convinced my husband. Thanks to Oliveda, he no longer has skin problems after shaving his face!

(Elisa J.)

I have now finished my first bottle of Beauty Foundation. And I can already see changes, my cellulite on my thighs has improved. My skin feels softer and is no longer so prone to dry skin. I noticed severely dry skin to it and now it is „just“ dry. Before the taste of the Beauty Foundation I had total concerns at first but I have found that it even tastes good to me. In addition, I have couperose with relapses already to the knot formation. There help me since about 1 week other products (cleansing gel, eye cream, day / night cream) to get the couperose under control. I also suffer from additional dry skin on my face, including on my eyelids. The SOS gel cools my reddened skin and does not dry it out. I have tried so many products for couperose and anyone who suffers from this skin condition knows how quickly you notice when you use the wrong product for your skin.

(Kerstin H.)

Since about mid-December I use Oliveda products and it becomes more and more. Yes, already on this actually short time I can report on my experience. I am totally thrilled by shampoo and the hair mask, the face serums F06 and Corrective, plus the face creams, Midnight Elixir, I66 and I70, Orac & CamuCamu, mouth drawing oil, foot balm, Neroli oil, care shower Aroma, body serum Cell active, body oil vanilla lavender and sage. Eye elixir Corrective as well as the eye cream Corrective. Today I started with the olive oil. Yes what else can I say, I love Oliveda, would not want to miss it. My skin is saturated, but I had in the chin area or lower face area in winter always dry flaky skin, nothing has helped. And the blemishes on the chin are also less. Even my „frown line“ on my forehead is getting lighter, I would never have thought. No more sallow facial skin. Yes and the shampoo, a dream to wash the hair with this natural shampoo and you can comb through it afterwards. With other natural shampoos I look like an old broom! Oh yes, all the teas I also have. My favorites at the moment are I50 and I48. So, thank

you very much that you exist, their olive trees and Oliveda team and of course the founder Mr. Lommel, whose book I have of course already read with great interest.

(Michaela B.)

For many years I have tested my way through several creams and other care products that were supposed to improve my skin. Most of the time the creams were too greasy, were heavy and made me sweat quickly, so that I ended up with one more product in the bathroom, which was then not used further and just stood around uselessly. But then I discovered OLIVEDA for me. At first I was rather skeptical, but it was worth a try! Now I use OLIVEDA since the beginning of February this year and have become really addicted to the products. Every month I add more products and recommend them to my friends. I start my morning routine with the „F38 Cleansing Gel“ and the „F06 Serum“, which makes my skin glow and also doesn't weigh it down. I like to additionally apply the serum directly on my makeup to get a special glow. The „F07 Anti Aging Face Cream“ and the „F09 Eye Cream“ still strengthen my well-being in the early morning. The 3 products alone have thrilled me from the start. My skin is no longer dry, wrinkles are reduced especially at the eyes and my red spots have become less. Previously, I always had big problems with pimple marks, this problem has also decreased by a lot. Through OLIVEDA I can even leave the house without make-up, which I did not dare to do before.

(Maria)

Thank you very much for the insightful, informative phone call and for your kindness! I would like to share my experience with the IO1 with the Oliveda Beautys. I have suffered sporadically from stomach and intestinal problems since I was 17 (now 55). I used to have stomach ulcers, frequent stomach pain to severe nausea. Heartburn and a painful pressure were also unpleasant side effects every now and then. When I followed Thomas Lommel with Miriam Jacks live on Instagram, I immediately ordered the IO1. After a visit to a restaurant, in the summer of 2020, I got such severe stomach cramps that I no longer made it home and ended up in the cornfield with sweating and severe cramps. At home I immediately took the newly acquired remedy and it worked like a miracle. Since then I have been taking it daily and to this day I am symptom-free. I can only recommend everyone to try the IO1. It even works, through the most vitamin C-rich

OLIVEDA

OLIVE TREE PHARMACY

fruit, the Camu Camu, colds and strengthens the immune system. With me in any case! Stay all healthy and cheerful!

(Renate)

How did I come across Oliveda? Through Instagram! Many lovely people I follow have told of positive experiences with your products, so one day I also thought „Gee, I want to try it too!“ I started with your great set to get to know. The day cream „Cell Active“ and the eye cream have inspired me immediately, so that I have reordered directly in larger units after using up. The products are so economical that I have been using them for months already and enjoy the pleasant smell and the great feeling on the skin every day. I have also added the serum, facial oil and cleansing gel to my line and am very pleased with all of the products. My skin is clean after cleansing with no residue and feels soft and not a bit dried out. I mix the oil into the serum every now and then and then apply it. All products absorb quickly and leave skin feeling nice. The face feels nourished, well moisturized. Even in winter, dry skin no longer flakes. I can absolutely recommend the products I use from Oliveda and also like to give away something in the family and friends!

(Nina W.)

I am now 64 years old, suffered from rosacea for 15 years, in the area of the cheeks and chin. I have tried cortisone creams, antibiotic ointments, cosmetics from the pharmacy, (la Roche Bossa), and various anti rougeurs special cosmetics. I became aware of your products through a friend, and have we very carefully first ordered a night cream. Then a serum, then the eye cream, then the eye serum, and then it actually went off with my addiction, and I have from the mask to the peeling as good as all preparations at home. Meanwhile, I have almost all girlfriends already gifted, the mouthziehöl get my sons, she is with great success and great joy apply! The most beautiful thing of all is that my skin, despite my 64 years, has become as flawless and wonderful as I last had it as a young woman. I am usually never ready to give reviews or any comments, but this time I really have to give a huge praise, because the products are not only tolerable, but they are really genuinely beautifying, and after all, you are still at 64, namely vain.

(Petra B.)

Unfortunately, I have no experience with the Inside products. I was for years in search of a valuable natural cosmetics and have

really tried many products. I have very sensitive, dry and now also wrinkled skin, puffy bags under my eyes especially in the morning (at 57 years old, this is also part of it!) My previous care products were always just a compromise. On recommendation of a dear friend I became attentive on Oliveda and tested the eye serum as well as the eye cream once and saw immediately a change. In the meantime I use them regularly in the morning and in the evening, as well as additionally the face oil and the Cell Active Face Serum. Today I received another order with cleansing gel and toner, face cream, body serum and hand cream. I am already looking forward to the complete care of Oliveda. I am already convinced, my skin shows it to me every day, it feels cared for and nourished. No signs of dryness and feeling of tension. The products feel wonderful when spreading and patting in and also smell very good. I will definitely want to test the Inside products next. I am already quite excited and very much looking forward to it. I have already read many positive comments and hope that the morning shot makes me as satisfied as the care products.

(Kathrin S.)

Since about mid-December I use the Oliveda products and it becomes more and more. Yes, already on this actually short time I can report on my experience. OLIVEDA

OLIVE TREE PHARMACY

I bought the recommended products thanks to the personal advice of Oliveda! I must admit that I was skeptical at first. Far too often I had been disappointed by such hyped products. Already on the 3rd day after taking The Beauty Molecule, I myself felt an improvement in my skin and connective tissue. The skin seemed much more hydrated and the connective tissue seemed firmer. My mother noticed this as well, which is why she jumped right in. Finally, after a week, I didn't have time to completely restore myself once in the morning. For years I had not left the house without makeup. I have no classic problem skin, but with now 38 years, there are now times a few minor wrinkles, pigmentation disorders that run in the family and the one or other redness. I did not feel uncomfortable. Rather a little naked. When I actually went shopping that day except for mascara and my Oliveda skincare, the unbelievable happened. I was approached not once or twice by acquaintances, but also by my favorite pharmacist and cashier from the supermarket - a whole 3 times in one day. I was asked if I was pregnant or in love because I looked so radiant, plump and healthy. Three times from three completely unrelated people and times. What can I say. I am not pregnant and I am not in love. Except now in my skin! Since that day, I no longer wear makeup of any kind. I feel more comfortable. Lighter. Fresher. More beautiful! I actually can't thank Oliveda enough! This is not flattery! I am so absolutely convinced and happy and finally feel comfortable in my skin again! Thank you so much that I can be me again!

(Dr. Julia W.)

I received the F06 Cell Active Serum Face as a gift from my friend, along with the I51 Olive Leaf Tea. I love olive leaf to drink - to apply to the face as well, as I now realize. I have very dry patches on my face and tend to have dryness lines under my eyes. This serum exceeds my expectations, I feel immediately after application how rich this is. My skin feels wonderfully moisturized, nourished and I even feel like my pores are not as big anymore, at least they are less noticeable. I also like the consistency and how quickly the serum absorbs when I'm in a hurry in the morning and want to apply my makeup right after. I use it right after I shower and before I apply my makeup. A very small amount is already enough, the serum is very productive. By the way, it can also be used on the neck. Top natural cosmetics without harmful substances with a super effect!

(@Mi-Lena)

On the advice of a friend who recommended the great products to me, I have also approved the B13 hand cream and the B14 SOS olive leaf gel, as well as the foot balm. Actually, the products speak for themselves - just great! The hands are despite the use of many disinfectants after the eincremen again wonderfully soft. The leaf gel I have as a first aid in my handbag, especially at the moment, where we are partly afflicted by mosquitoes on vacation ... a few drops and it helps immediately against the itching. Last but not least, a sentence about the foot balm: for years I plague myself almost unsuccessfully with pathological callus growth and severe chapping on the feet. After taking the balm for about a week, the problems decreased by about 50% - it's the first time in years that my feet stay soft for days and don't crack again immediately after creaming! Even my podiatrist was thrilled with the results!

(Felice)

I became aware of the products almost out of desperation. I used to be plagued by an infection almost every month during the winter. I had tried various things without resounding success. Then I tried Orac Camu Camu, according to the motto it can not hurt. Since then I survive the winter almost free of infections. If I nevertheless caught something, then it goes relatively fast past. When I had a few weeks off, the number and intensity of infections increased. Even in times of Corona I don't want to miss it any more. I have the impression that the preparation is also a mood enhancer. An acquaintance who works in a pharmacy told me that she successfully uses the preparation against menopausal symptoms.

(Maria B.)

Contrary to your feed, which consists only of pictures with women, I also use Oliveda products as a man. Yes, men should and must care for themselves. Your products I use now longer. A special favorite product I do not have, because the products complement each other well. Mostly I use the F06. It provides my skin with the best protection especially after the shower or after shaving. But if I notice that the skin requires „more“ I still supplement with the F07 cream, especially in winter with dry skin. Which product has also blown me away, is the F59. The tightening effect of the hydroxytyrosol is noticeable after a very short time and strengthens the skin sustainably. The combination of products has greatly improved my skin texture over time. The pores are much cleaner, the skin is firmer and a beautiful comple-

OLIVEDA

OLIVE TREE PHARMACY

xion is the result. I would no longer want to miss your products and therefore gladly share my experience with you.

(Francisco H.)

Here comes my experience report. AND: Thank you for your wonderful service! In three days I will be 50 years old. Like many women, I have had an odyssey through the world of cosmetic products, have tried many things that were sold to me with great promises of success. At some point I read about Oliveda products and at first I didn't want to buy them because I thought that olive products would certainly not help me and my skin. Why olives of all things? Too weak, too natural - those were my first thoughts. Then I took a liking to taking care of myself from the outside and nourishing myself from the inside. It made sense to me. After reading the story of how Oliveda came to be, I ordered. Care that suits my skin type and first a 3-month course of Collagen I66, later Hyaluron I70. I do not know when the effect became visible to myself. One morning I touched my skin, pressed it and felt: it is plump. Overall, I can say that my skin appearance has improved extremely. I don't know if you have to, but I take a measuring cup of I66 every morning, alternating with the hyaluron. The visible result is just great and my body feeling has improved. And it has a contagious effect. My brother has noticed the visible proof on me and has also become a customer. It's nice that I can see the result on him in the meantime. The beauty of this report is that it is a true story.

(Christiane W.)

First of all, I have to thank you again for your wonderful products! Since I came across Oliveda, my life has totally changed for the better in terms of skin appearance and the feel-good factor. I am very enthusiastic and can only recommend your products. I am even more delighted about the new products. The F76 Honey Enzyme Face Mask and the F77 Olive Matcha Face Mask have both already reached me and I am also thrilled with these products. From the first application, both products won me over immediately. The F76 has a very pleasant natural scent, as well as a very rich consistency. The can be distributed quite great on the skin. One feels no burning or pulling, as with usual face care masks. The mask is very nourishing and moisturizing. One feels simply beautiful with a radiant complexion! I can highly recommend both masks and am happy about your new products in the collection! Because as the say-

ing goes, you should take care of your body, because it's the only place you have to live! I could already inspire many of my friends for your products, and maybe I may in the future but again your products active Supporten in the form of a cooperation. That would be a great wish of mine. Because rarely do I stand so behind products. Stay as you are and all the love for the future!

(Nicole K.)

I use the Oliveda products for almost 2 years and have never had such great products. I have tried everything whether natural cosmetics or not. I have had such amazing results after such a short time that I could not believe my eyes. I have been suffering from pimples on my face and even more on my décolleté for years and after just a few days of I70 I had virtually no pimples. Finally I can wear shirts with cleavage again, it is like a new life for me. When my girlfriend saw the before and after photos, she didn't hesitate long and convinced herself. What can I say, now she is just as excited. Oliveda has changed my life and my self-confidence. THANK YOU!

(Janine)

I got to know and love Oliveda last year in the fall. I ordered the serum F06 last year and love it. I notice how good it does my dry skin. It gets a lot more glow and it doesn't feel tight and dry anymore. The serum is very pleasant to apply and absorbs quickly. Now to my skin condition. I got bad skin all of a sudden 2 years ago and ran from doctor to doctor because I had painful pustules. The diagnosis was acne, probably due to hormonal changes. I have tried several companies, whether from the drugstore, or from the pharmacy. By changing my pill and by your OLIVEDA products I finally feel well again. I still have some redness, but my skin condition has definitely improved and feels good. Neither too dry, nor too greasy, nor impure. Furthermore, I love using your eye cream F09 and face cream F07! You just notice how rich it is for the skin, but not like it's greasy, but really a nice nourishing feeling! So all in one, I'm happy all around and would recommend OLIVEDA to anyone!

(Sophie P.)

How did I come across Oliveda? Through Instagram! Many lovely people I follow have told of positive experiences with your products, so one day I also thought „Gee, I want to try it too!“ I started with your great set to get to know. The day cream

FIRST WORSENING WITH OLIVEDA REVIEWS

I will be 42 and have never had any experience with natural cosmetics, let alone cosmetics that work from the inside. I have a care plan created with you and have started with a F06 serum, F63 face oil, F09 eye and F07 face cream. At first my skin got worse and I was disappointed, but had resolved to follow through until the end of the month. From the end of the 3rd week my skin cleared up and started to look recovered! Two weeks later, my skin was unrecognizable. No pimples or blackheads and my pores have never been so small. I could do without pore minimizers! So I got brave and ordered the Beautyspot! Super tasty and doesn't cost any effort to take it. After about again 3 weeks, my skin started to look refreshed and really glow! The best effect, however, is that I have been suffering from constant and very bad bladder infections for years and have had to take so much antibiotics that I developed bad side effects. After about 6 weeks of taking the Beautyspot, I have had no more bladder infections! I think the shot helped balance my gut flora! I am insanely happy and have not taken an antibiotic or had a bladder infection for 5 months now! I now swear by OLIVEDA. I would love to do an OLIVEDA cure in Mallorca to get rid of all the toxins, but as a mommy of three children this is not yet financially possible. Someday I will fulfill this wish for the sake of my health. Until then, I continue to drink and cream in any case and follow you on Instagram. You will no longer get rid of me!!!!
(Angelika T.)

I have the products F06 Serum Face, F07 Face Cream Anti Aging, F09 Eye Cream and since two weeks also I70 The Beauty Molecule incorporated in my daily care. I have me before the products of OLIVEDA only with coconut oil creamed, as well as removed make-up. This worked quite well, but my skin still seemed very strained. Often I had directly large dry places with fluctuations of the hormone level, impurities anyway. After I started with OLIVEDA, my skin condition worsened at first, as far as the impurities were concerned. However, my skin immediately felt refreshed, plumped up and relaxed. The dry spots became less and are partially, despite hormone fluctuation no longer there. What makes me very happy. In the meantime, my overall skin condition is also better. With the start of the I70 I have once again noticed a „power boost“ of my skin. Really great. What is also positive, my T-zone forehead and nose, are no longer „greasy“, the skin does not shine unnecessarily. I can only recommend OLIVEDA.
(Lisa)

First of all, I love your products! I started with the scrub and the moisturizing mask. The scrub so gentle, the mask moisturizing and wonderful on the skin. Then came F06, F09 and F06 and the face oil. My skin, which had always been pulled and tight, has relaxed so wonderfully, becoming rosy and fresh. It feels great. However, the small blemishes on the chin unfortunately did not go away either. That's when I got my act together and

OLIVEDA

OLIVE TREE PHARMACY

thought: OK, the last thing I'm going to try is an Inside product. So I ordered The Beauty Molecule. Either it helps or you put money down the drain once. And I could hardly believe it. My skin is fresh, glowing, feels incredibly soft and best of all, the blemishes are starting to disappear. I'm soooooo happy about it and really happy. And that after 2 weeks!!!! I find you, your brand and the philosophy top. Thank you!!!

(Simone)

I started switching my cosmetics to OLIVEDA about six months ago. Unfortunately, my skin did not react very well to the change. I started getting little pimples, bumps and dry patches of skin. Not knowing any better, I thought it was an allergic reaction and stopped the change again. Four weeks ago I started using your products again, but this time I persevered. And what can I say „thank God“!!! With the F74 face cream Regeneration Intense came the absolute bomb. After only 2!!! Days were all pimples gone and my skin just shines. Every day I am asked

what I do that I look so fresh and refreshed.... Thank you for your great products!!! THANK YOU, THANK YOU, THANK YOU.

(Lucienne D.)

I went through with it and continued to use the products and am really excited. I have dry skin in the morning and during the day it starts to get oily. So bad that in the afternoon I have a real layer of fat on my forehead (only the forehead is so extremely bad). With the Oliveda products this has only gotten worse, so I was a little scared and disappointed as I really had hopes of getting my problem under control with the Oliveda products. However, after about 3 weeks it has become better. My skin has become really beautiful. The forehead Fettes although still a little bit but it is clearly improved and by far no longer so that one would have to do something against it. Thank you very much. I am really glad that I have tried it and especially that I have continued to use the products, despite initial deterioration.
